Hello,

I'm a UI/UX and Graphic Designer who believes great design begins with a strong idea, often starting as a simple sketch. With a foundation in drawing and hand sketching, I transform concepts from paper into intuitive and visually compelling digital experiences.

My approach blends creativity with strategic thinking, focusing on solving real problems through thoughtful design. I create interfaces that are not only aesthetically refined but also seamless and user-centered, where every detail serves a purpose.

I also integrate AI into my process as a creative tool - expanding possibilities, accelerating exploration, and refining execution while ensuring that human insight and authenticity remain at the core of every design.

Skills

Tools & Technologies

Photoshop • Figma • Adobe Illustrator • AI-assisted design tools

Design Foundations

- Strong understanding of visual hierarchy and interaction design
- Knowledge of usability principles and user-centered design
- Attention to detail in typography, color, and composition

Creative Strengths

- Hand sketching & concept development
- Visual storytelling
- Fast ideation and iteration
- Blending human creativity with AI-driven exploration

Education

I am currently a second-year undergraduate student, building a strong foundation in design, creativity, and technology. Alongside academics, I actively explore UI/UX and graphic design, continuously improving my skills beyond the classroom.

I believe in learning by doing - from sketching ideas by hand to leveraging digital tools and AI in my creative process.

Currently, I am working as a Graphic Designer for our college fest, contributing to visual branding and promotional designs.

DESPORTIVOS

(Event Branding)

Sports fest of
LNMIIIT Jaipur

Logo Unit: For this year, the theme was 8-bit pixelated, inspired by retro gaming visuals. I designed the logo unit with a bold, block-based style influenced by Minecraft, using chunky, stone-textured letterforms to reflect strength, competition, and the energetic spirit of the sports fest.

Desportivos Organizing Committee

The character features a bold yet approachable personality, reflected through his confident stance, subtle smirk, and athletic styling.

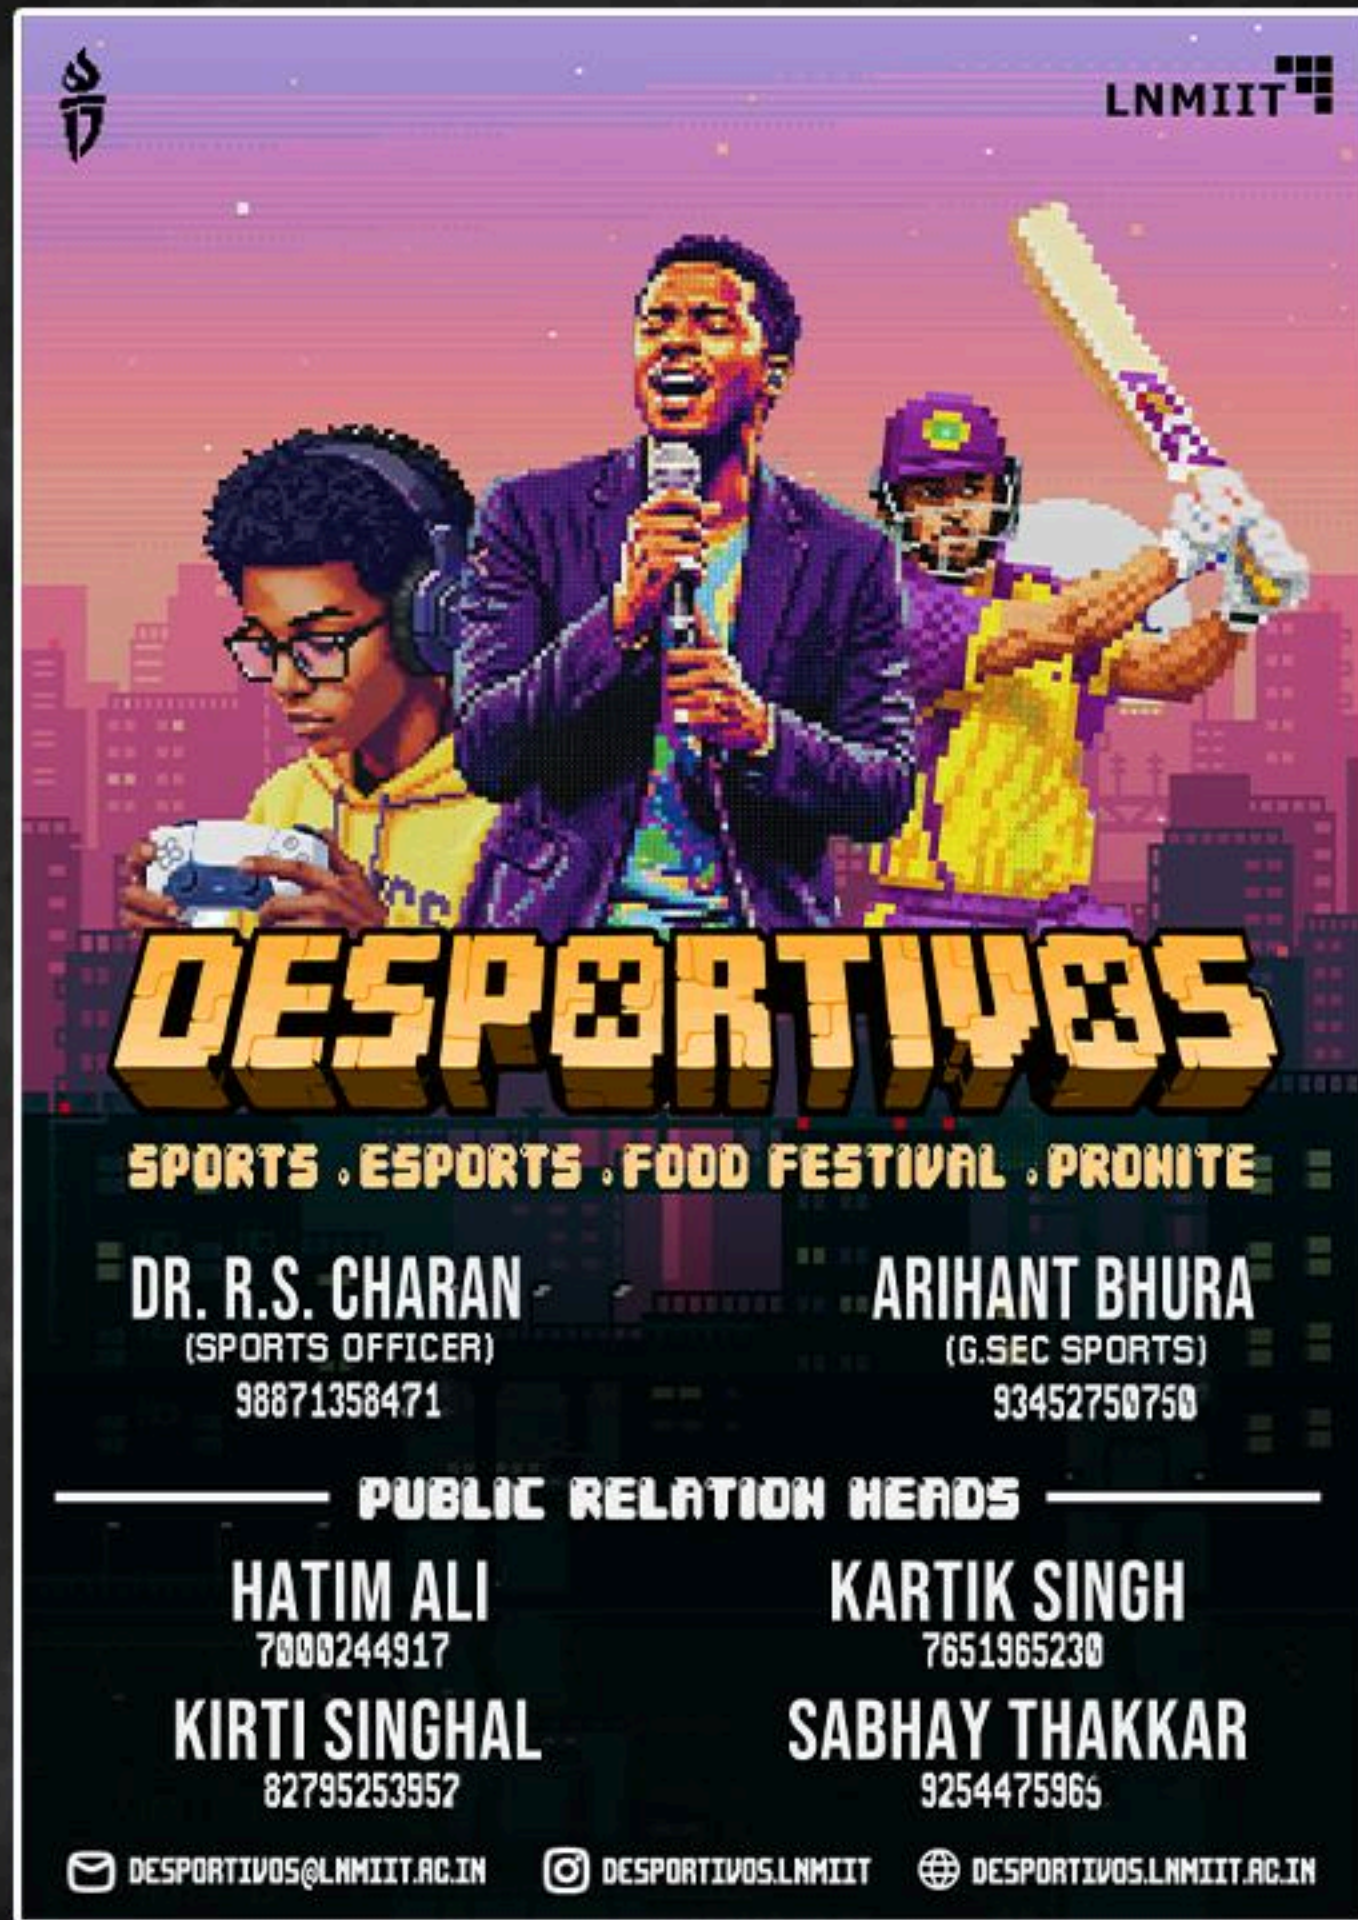

This alternate mascot version amplifies energy and attitude, giving the character a more playful yet bold personality. The exaggerated grin, expressive eyes, and crossed-arm stance create a confident, competitive vibe - perfectly aligned with the high-energy spirit of a sports fest.

The contrast visually merges modern character design with retro gaming aesthetics, reinforcing the event's theme in a striking and memorable way.

While I may still be early in my journey as a designer, I bring strong curiosity, creativity, and a constant desire to improve. I enjoy transforming ideas into visual experiences, whether it starts from a quick sketch on paper or a concept developed digitally. I'm always exploring new tools, learning new techniques, and pushing my creative boundaries.

Thank You
